adequately. Then you whine and complain because you say the debate goes too long. Well, if you choose not to talk when the opportunity is there, can you blame me? What I'm talking about objecting to is the arbitrary irrational limit placed on the number of amendments a member can offer. But if you're going to do it, put it on all of us and take away the chance of arbitrariness which you placed in whoever happens to be sitting in the Chair.
